VI. Update, Discussion, and/or Action Item

Mr. John Jaramillo, CRLC Co-Chair and Dean Resource Associate, OCR

- a. Mr. John Jaramillo provided an update regarding the status of several grants. The grant for cybersecurity work with Guam, announced in October, is no longer available, which has impacted their plans. He also mentioned that other colleges are facing similar challenges with federal funding, and while there has been no communication yet regarding grants like Title 5, Title 1, Title 3, or Title 2, some schools are already encountering issues. Additionally, the grant with UC Irvine, which was expected to provide further funding for automotive-related work, will not be received. Although

this is disappointing, they will continue the work, but the implementation will slow down until there is more clarity on funding.

VII. Updates

- a. Cypress College: Dr. Rick Hodge provided an update regarding the AI EDU event. He mentioned that they will be reaching out to the Deans at each college to ask for recommendations on faculty who could participate in the workshops and activities. A flyer with a save-the-date notice and more event details will be sent out soon, along with a description of the planned activities. Dr. Hodge also noted that an existing committee of about 10 individuals is currently working on the event details, and they will share the information with all colleges.
