VII. Update, Discussion, and/or Action Item

Dr. Crete discussed recent updates to TOP and CIP code alignment, including a new crosswalk and guidance impacting both CTE and noncredit programs. Participants were encouraged to review the materials and provide feedback to their CIOs by the end-of-month deadline, as changes are still being finalized. A key update is that noncredit CTE programs must now select a primary noncredit CIP code (typically workforce preparation) along with a secondary CIP code aligned to the appropriate CTE classification for labor market reporting. This approach has raised concerns due to potential misalignment with program intent and impacts on data accuracy and funding. The process remains fluid, with evolving guidance and ongoing revisions from the Chancellor’s Office. New tools, dashboards, and a changelog are being introduced to support implementation, and stakeholders were encouraged to stay engaged and monitor updates closely. Additional discussion focused on program modification policies related to TOP code changes, with efforts underway to establish clearer, consistent guidance. Participants emphasized the importance of continued dialogue and regional advocacy as updates progress.

VIII. College Updates

The new dean, Dr. Natalie Nagthall, introduced herself, and the college deans, COE, and OCRC team members provided introductions in return. Dr. Nagthall shared that she recently began her role as the CTE Dean at Coastline College and expressed her enthusiasm for joining the team and collaborating with regional partners. No additional updates were reported by the colleges.
